## **Why a reading program?**

During the 2020 COVID pandemic, schools shut down. As a result of these shutdowns, many children displayed notable gaps in their learning. In turn, the federal government asked schools to address this learning loss and allocated substantial monies to learning institutions for this express purpose. Districts were encouraged to create and implement plans that would lead to the reduction and elimination of these expansive learning deficits.

The interconnectedness of reading to all subject areas is undeniable. When kids struggle with reading, they often suffer in other academic areas. So, at LCS, we decided to implement a program that would boost reading achievement: Literary Leopards. Through federal funds, our children in grades K-6 will receive materials and supplies that enable them to read high-interest books at their reading level every day with their families.

## **Is learning to read well that important?**

Reading at home is proven to improve educational skills in the most significant of ways. When kids read a lot and often, their spelling, grammar, mechanics, vocabulary, fluency, comprehension, and writing skills improve. Thereby, their overall academic achievement improves. Studies have shown that reading also strengthens the brain, can increase empathy, prevents cognitive decline, reduces stress, aids sleep, and can alleviate depression. We get so much bang for our buck when kids read. Please join us in this crucial endeavor. Parental involvement and a show of high expectations are vital to the success of this initiative and are the most impactful way to help your child's learning progress.
