

December 1, 2021

Dear Parents and Community Members,

The Superintendents and Athletic Directors of the Tri-Valley League have agreed on common protocols for teams who are not following face mask protocols. The health and safety of our athletes, coaches, and fans are of the utmost importance to us.

1. If a player is consistently violating the mask rule, not fixing the mask in a timely manner (as soon as possible), we will talk to the coach of the player and a warning will be placed in the scorebook.
2. If the same player violates the mask rule again, and is not fixing the mask in a timely manner (as soon as possible), the Administrator on site will be notified and a second warning will be placed in the scorebook.
3. If the player violates the mask rule for a third time, and is not fixing the mask in a timely manner (as soon as possible), the player will be removed from the game and will not be allowed further participation in the game. The Administrator on site will assist with the removal and relocation (bench, locker room, etc.) of the player.

A reminder to all spectators who are in attendance that face masks must be worn covering both mouth and nose while in the building. If you cannot follow this rule you will be asked to leave the premises.

We are looking forward to watching our student-athletes compete. We are asking for your cooperation in following the protocols and expectations that have been put into place. If everyone does their part we can have a successful basketball season.

Sincerely,

Tri-Valley League Superintendents
Tri-Valley League Athletic Directors
