Laurens Central School District Board Policy

NON-INSTRUCTIONAL BUSINESS OPERATIONS-5671

Subject: **Drug-Free Workplace**

It shall be the general policy of the Board of Education to affirm that all programs in the District which receive Federal funds shall guarantee that their workplaces are free of controlled substances. Employees of the District are prohibited from engaging in the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance on school property. A “controlled substance” includes drugs which are illegal and prescription drugs which are considered highly addictive, and includes all controlled substance in schedules 1 through 5 of Federal Regulations as defined in 21 CFR 1308.11 through 1303.15. This policy shall guarantee that not only federally funded programs, but the entire District is free of controlled substances.

The Board of Education directs the administration to develop regulations to comply with this policy, and further supports such actions and activities of the administration as shall be required to maintain a drug-free workplace.

Drug-Free Workplace Act of 1988

- I. As per the Instructional Support negotiated Agreement (CSEA Agreement), all employees may be formally (written) evaluated at least once a year.
 - a. Periodic information written (no specific format) or oral review of an employee's work performance may occur any time for purposes of job improvement. Repeated job expectation violations will be used in the process of job termination.
- II. All written and oral communications regarding an employee's job performance will be recorded in his/her personnel record.
- III. An employee will acknowledge by signing his/her completed Evaluation form indicating that he/she has had the opportunity to review such material.
 - a. Signing does not particularly mean the employee agrees with the Supervisor and/or Superintendent's assessment.
 1. It does mean that the completed evaluation form was reviewed with the employee.
 2. If the employee wishes to register another viewpoint with the Superintendent on any of the matters evaluated, he/she may do so within ten (10) working days of the evaluation review. If no comments are registered within that time, the completed evaluation form stands agreed upon by both parties.
 - b. Failure and/or refusal for the employee to sign his/her completed evaluation form will be cause to take disciplinary action.

- I. The following information is required to be present and available in each instructional support personnel folder:
 - a. Application
 - b. Letters of Recommendation (3)
 - c. Letter of Appointment (date)
 - d. Salary Statement
 - e. Completed Evaluation Forms
 - f. Other
 1. Any information regarding work performance.
 2. Any information that may be relevant to a person's employment.

Students injuries are to be reported to the nurse immediately.

- a. Minor Injuries - radio the nurse, send or escort the student to the nurse's office. Escort may be an adult or another student, depending on age level.
- b. More Serious Injuries - radio the nurse and request assistance. Be sure to give clear information as to location of the accident.

Following are procedures to follow when dealing with accidents that occur on school property:

- I. Gym, playground accidents and/or Interscholastic or athletic activities (report within 24 hours): An Accident Report must be filed by the person in charge. The report goes to the school nurse who, in turn, decides the next step. All accidents requiring a doctor's attention must be reported to the Superintendent by the Nurse.
- II. Classrooms, corridors, etc. (report within 24 hours): An Accident Report must be filed by the staff member present with the school nurse. The nurse will see that all reports requiring a doctor's attention are submitted to the Superintendent.
- III. Accidents aboard a bus (report within 24 hours): All accidents must be reported by the driver in charge to the school nurse. The school nurse will see that all reports requiring a doctor's attention are submitted to the Superintendent. If the bus driver is transporting a group that is under the direct supervision of a Board appointed school employee, (i.e. Coach, Advisor, Teacher), that person is responsible for completing and filing the report.
- IV. Insurance Coverage - Students are covered for accidents occurring in gym, athletic activities, or playground activities. The nurse is responsible for filing reports with the school district insurance carrier and assuring that the proper information is provided. The nurse is to be the only person with the proper forms for filing for insurance purposes and is to follow up until completion with all claims submitted.
- V. Student Responsibility - If no staff member is present and an accident occurs, the student is to report to the school nurse. Failure to report within 24 hours makes it more difficult to provide insurance coverage. Students who are going directly to a doctor without advising the school nurse cannot be assured of insurance coverage.
- VI. School personnel are covered by compensation; therefore, if any staff member should sustain an injury at school, it must be immediately reported to the school nurse within 24 hours.
- VII. The method of filing and filling out accident reports can be explained to you by the school nurse.
- VIII. All personnel should be aware of the Liability Laws as they pertain to the supervision of children during attendance at school or school-related activities.

This policy is a commitment by the Laurens Central School Board of Education to encourage and support the efforts of the professional staff in confronting the problem of child abuse to the extent it exists, or is suspected to exist, with school-aged children who are either directly under staff jurisdiction or who the staff may have casual contact within the normal performance of their instructional duties.

In keeping with this commitment, the below outlined guidelines will provide direction to the staff in meeting the reporting requirements mandated by the New York State Child Protective Services Act of 1973.

Definitions

The following definitions are taken from the Child Protective Services Act of 1973 (Title 6, Article 6, of the Social Services Law) and the Family Court Act (§1012) and provide the framework for assessing whether a child is abused or neglected.

An abused child is a child less than 18 years of age whose parent or other person legally responsible to care:

- I. Inflicts or allows to be inflicted upon such child physical injury by other than accidental means which causes or creates a substantial risk of death or serious or protracted disfigurement, or protracted impairment of physical or emotional health or protracted loss or impairment of any body organ, or;
- II. Creates or allows to be created a substantial risk of physical injury to such child by other than accidental means which would be likely to cause death or serious or protracted impairment of physical or emotional health or protracted loss or impairment of the function of any body organ, or;
- III. Commits, or allows to be committed, a sex offense against such child as defined in the Penal Law, or allows such child to engage in acts or conduct described in Article 263 of the Penal Law. These acts are: using a child in a sexual performance and promoting a sexual performance by a child.

§1012 of the Family Court Act defines a neglected child as a child less than 18 years of age:

- I. Whose physical, mental, or emotional condition has been impaired or is in imminent danger of becoming impaired as a result of the failure of his/her parent or other person legally responsible for his/her care to exercise a minimum degree of care.
 - A. In supplying the child with adequate food, clothing, shelter, or education in accordance with provisions of Part 1 of Article 65 of the Education Law, or medical, dental, optometric, or surgical care though financially able to do so or offered financial or other reasonable means to do so; or

- B. In providing the child with proper supervision or guardianship, by unreasonable inflicting or allowing to be inflicted harm, or a substantial risk thereof, including the infliction of excessive corporal punishment; or by using a drug or drugs; or by using alcoholic beverages to the extent that he/she loses self-control of his/her actions; or by any other acts of a similarly serious nature requiring the aid of the court; provided, however, that where the respondent is voluntarily and regularly participating in a rehabilitative program, evidence that the respondent has repeatedly misused a drug or drugs or alcoholic beverages to the extent that he/she loses self-control of his/her actions shall not establish that the child is a neglected child in the absence of evidence establishing that the child's physical, mental, or emotional condition has been impaired or is in imminent danger of becoming impaired as set forth in paragraph (I) of this subdivision; or
- II. Who has been abandoned by his/her parents or other person legally responsible for his/her care.

WHO MUST REPORT

All members of the administrative and instructional staff are required to report to the New York State Central Register of Child Abuse and Maltreatment when they have reasonable cause to suspect that a child coming before them is an abused or maltreated child.

Individual staff members suspecting abuse or neglect will immediately notify the person in charge of the school and/or program director, who then also becomes responsible to cause a report to be made. While consultation with a school administrator is required, this does not give the administrator the power to prohibit reports from being made to the New York State Central Register of Child Abuse and Maltreatment. However, since many of these cases are judgment calls, consultation involving a second opinion may make for more accurate and effective reporting.

It should be understood that neither the law or this policy requires certainty or proof of abuse before reporting. Reasonable cause to suspect abuse should trigger a report.

PROCEDURES FOR REPORTING

All reports will be made orally by calling the New York State Central Register of Child Abuse and Maltreatment (1-800-342-3720). While complete information may not be available when the phone report is made, the below information would be desirable:

- *name and address of child and his/her parents or persons in parental control;
- *child's age, sex, and race;
- *nature and extent of child's injuries, abuse, or maltreatment, including any evidence of prior injuries, abuse, or maltreatment to the child or his/her siblings;
- *name of person or persons causing the injury, abuse, or maltreatment;
- *family composition;
- *source of report;
- *person making the report and where he/she can be reached;
- *any action taken by the report source, including the taking of photographs and x-rays.

The person making the call should discuss with a person at the New York State Central Register of Child Abuse and Maltreatment whether the name of the person making the call and the school affiliation should be released to the parent.

Within 48 hours of the oral report to the State Register, a written report DSS-2221A (Report of Suspected Child Abuse or Maltreatment) must be filed with the local County Department of Social Services Child Protection Services. These reports are admissible as evidence in any court proceedings related to the child abuse and maltreatment incident.

Where there is suspected abuse, school officials may take, or cause to be taken at public expense, photographs of trauma visible on the child. If medically indicated, they may also request a radiological exam of the child. Any such evidence may accompany the DSS-2221A report or be submitted as soon as possible thereafter.

LEGAL IMPLICATIONS FOR MANDATED REPORTERS

- A. Immunity - School personnel who, in good faith, make a report or take photographs of injury and bruises are immune from any liability, either civil or criminal that might otherwise result from such action. The good faith of any person required to report cases of suspected abuse is presumed.
- B. Liability - Any person required to make a report who willfully fails to do so is guilty of a Class A Misdemeanor and is civilly liable for the damages prominently caused by failure to report.

CHILD PROTECTIVE SERVICES: ACCESS TO SCHOOL RECORDS

In the interest of protecting students from further harm, school personnel will cooperate fully with representatives of the County Child Protective Services Unit. The social worker may interview in school any pupil about whom a report of suspected abuse has been made regardless of the source of the report. Generally, a school official will be present during the interview unless it is mutually agreed by the school authorities and the Child Protective Services Investigator that the absence of the school official will increase the likelihood of the investigator accomplishing the purpose of the interview. Where the presence of a trusted teacher is possible during the interview with the child, and where such presence is likely to elicit more detailed responses from the suspected victim, arrangements should be made for the presence of that teacher during the questioning.

CONFIDENTIALITY OF REPORTS

While reports of suspected abuse are confidential and may only be made available to those individuals or groups specified by law, it should be noted that the subjects of a report are among those entitled, upon request, to a copy of all information contained in the New York State Central Register. However, the Commissioner of Social Services is authorized to prohibit the release of data that could identify the person who made the report or who cooperated in the subsequent investigation, if the Commissioner finds the release of such information will be detrimental to the safety or interests of the reporter.

REPORT TO PARENTS

Generally, it will not be the policy of this district to inform parents when a report of suspected abuse has been made. Only where it is deemed to be in the best health and safety interest of the student to notify the parents, will such notification be given by school authorities.

SUSPECTED SEXUAL ABUSE

In the cases of suspected sexual abuse, no physical examinations will be conducted at school. School officials should contact the County Child Protective Services Agency for direction. If the agency recommends taking the student to the hospital for an examination, school officials will arrange for the student to be accompanied to the hospital by the school nurse, social worker, or other appropriate representative of the school.

TRAINING

The board further directs the Chief School Officer to train school employees regarding the policies and procedures regarding the child abuse/neglect.

- All educators are mandated reporters for suspected child abuse or maltreatment. And, while our District procedure is for each person to contact one of our guidance counselors, the school nurse or an administrator prior to calling/sending in a report, it is still each persons responsibility to report suspected situations should you not be able to speak with one of the above listed person. Also, if you have spoken to a counselor, nurse, or administrator who does not believe the situation merits reporting, but you still fell/believe that the situation does warrant reporting, you have an obligation to self report.

An educator will normally be assisted with the completion of the reporting forms, but there may be times when one of the above listed individuals are not available to do so. A copy of the form with supporting completion instructions is available in the District Office, CSE Office, Guidance Office, Main Office and in the back pocket of this book.

The Laurens Central School Board of Education is committed to safeguarding the right of all employees and students within the school district to ensure a work/learning environment that is free from all forms of sexual harassment. Sexual harassment does not only depend upon the offender's intention but also upon how the target perceives the behavior or is affected by it. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from peers as well as supervisors.

Therefore, the Board condemns all unwelcome behavior of a sexual nature which is either designed to extort sexual favors from an employee as a term of condition of employment, or which has the purpose or effect of creating an intimidating, hostile, or offensive working/learning environment for a staff member or student. The Board also strongly opposes any retaliatory behavior against complaints or any witnesses.

Any employee or student who believes that he or she has been subjected to sexual harassment should report the alleged misconduct immediately so that appropriate corrective action, up to and including discharge of the offender, may be taken at once. In the absence of a victim's complaint, the Board, upon learning of, or having reason to suspect, the occurrence of any sexual misconduct, will ensure that an investigation is promptly commenced by appropriate individuals.

The Superintendent of Schools is directed to develop and implement specific procedures on reporting, investigating and remedying allegations of sexual harassment. Such procedures are to be consistent with any applicable provisions contained in the district's collective bargaining agreements and the tenure laws with regard to sexual harassment of a staff member.

A copy of this policy and its accompanying regulation are to be distributed to all supervisory and non-supervisory personnel and posted in appropriate places.

The records of any reports will be kept confidential in a file in the Superintendent's office and will be disposed of according to legal guidelines.

Adopted: 9/15/92
Reviewed & Readopted: 5/20/2020

DEFINITIONS

Employee shall mean all teaching, administrative and support personnel.

Student shall mean any person attending Laurens Central School for the purpose of educational benefits.

Immediate supervisor shall mean the person to whom the employee is directly responsible (e.g. Department head, Building Principal).

Students should report alleged sexual harassment incidents to the Guidance Counselor.

PROCEDURES

Employees who believe they have been subjected to sexual harassment are to report the incident to their immediate supervisor. Should the immediate supervisor be the alleged harasser, the report shall be made to the next level of management. Incidents of sexual harassment may be reported informally or through the filing of a formal complaint.

Students who believe that they have been subjected to sexual harassment are to report the incident to their guidance Counselor. Should the guidance counselor be the alleged harasser, the report shall be made to the Building Principal. Incidents of sexual harassment may be reported informally or through the filing of a formal complaint.

All reports of sexual harassment will be held in confidence subject to all applicable laws and any relevant provisions found in the district's collective bargaining agreements.

Consistent with federal and state law, and all applicable provisions contained in the district's collective bargaining agreements, the following procedures shall be employed in handling any report, investigation and remedial action concerning allegations of sexual harassment:

INFORMAL COMPLAINTS

Employees who believe they have been subjected to sexual harassment may request that an informal meeting be held between themselves and the appropriate supervisor. Students may request that an informal meeting be held between themselves and their Guidance Counselor. The purpose of such a meeting will be to discuss the allegations and remedial steps available. The supervisor/counselor will then promptly discuss the complaint with the alleged harasser. Should the harasser admit the allegations, the supervisor/counselor is to obtain a written assurance that the unwelcome behavior will stop. Depending on the severity of the charges, the supervisor/counselor may recommend that further disciplinary action be taken. Thereafter, the supervisor/counselor is to prepare a written report of the incident and inform the complainant of the resolution. The complainant is to indicate on the supervisor's report whether or not he/she is satisfied with the resolution.

If the complainant is satisfied with the resolution, the incident will be deemed closed. However, the complaint may be reopened for investigation if a recurrence of sexual harassment is reported. The supervisor/counselor is to inform the complainant to report any recurrence of the harassment or any retaliatory action that might occur.

Should the complainant be dissatisfied with the resolution, he/she is to file a formal written complaint.

If during the supervisor's/counselor's informal attempt to resolve the complaint, the alleged harasser admits the allegations but refuses to give assurance that he/she will refrain from the unwelcome behavior, the supervisor/counselor is to file a report with the next appropriate level of management. The report is to indicate the nature of the complaint, a description of what occurred when the supervisor/counselor informed the alleged harasser of the allegations against him/her, the harasser's response to the allegations, and a recommendation that stronger corrective measures be taken. This report should be accompanied by a formal complaint.

Should the alleged harasser deny the allegations, the supervisor/counselor is to inform the complainant of the denial and state that a formal written complaint will be required for further formal investigation. The supervisor will file a report with the next level of management of what has transpired to date. If the complainant submits a formal complaint, a copy of it should accompany the supervisor's/counselor's report with a recommendation for further action.

FORMAL COMPLAINTS

Formal complaints may be submitted either to initially report any incidence of sexual harassment or as a follow-up to an unsatisfactory resolution of an informal attempt to resolve a complaint. In the latter case, the formal written complaint is to be submitted to the supervisor/counselor originally consulted, who will then forward it to the next appropriate level of management, e.g., the Superintendent.

The formal written complaint will consist of any appropriate forms and a copy of any applicable supervisor/counselor reports. The appropriate forms solicit the specifics of the complaint, e.g. date and place of incident, description of sexual misconduct, names of any witnesses, and any previous action taken to resolve the matter.

INVESTIGATING A COMPLAINT

Upon receipt of a formal or informal complaint, a prompt, thorough and impartial investigation of the allegations must follow. This investigation is to be conducted diligently. Complainants are to be notified of the outcome of the investigation.

REMEDIAL ACTION

If the investigation reveals that sexual harassment occurred, appropriate sanctions will be

Depending on the gravity of the misconduct, these may range from a reprimand up to and including dismissal from employment. When applicable, any lost employment benefits or opportunities will be restored to the victims.

Anyone subjecting complainants or witnesses to any form of retaliation will also be subject to disciplinary action in the manner prescribed by law and consistent with any applicable provisions in the district's collective bargaining agreements.

If the investigation reveals that no sexual harassment has occurred, or if the complainant is not satisfied with the remedial action taken after a finding of sexual harassment, the complainant may appeal to the next appropriate level of management, e.g., the Superintendent, or the Board of Education. The appeal must include a copy of the original complaint, all relevant reports, the specific action being appealed, and an explanation of why the complainant is appealing.

POST REMEDIAL ACTION

Following a finding of sexual harassment, victims will be periodically interviewed by the appropriate supervisory personnel to ensure that the harassment has not resumed and that no retaliatory action has occurred. These follow-up interviews will continue for an appropriate period of time. A report will be made of any victim's response.

COMPLAINT RECORDS

Complainants should receive a copy of any resolution reports filed by the supervisor concerning his/her complaint. Copies should be filed with the employment records of both the complainant and the alleged harasser.

INVESTIGATION IN THE ABSENCE OF A COMPLAINT

The Board will, in the absence of a victim's complaint, ensure that an investigation is commenced by the appropriate individuals, upon learning of, or having reason to suspect, the occurrence of any sexual misconduct.

Requirement for Continuing Employment

A. Annual (Every Year)

1. All bus drivers are approved annually by the Superintendent, as recommended by the Transportation Supervisor.
2. Each driver must pass an annual physical examination by a physician employed by the district.
3. Once in every twelve (12) month period, the School District shall review the driving record (Abstract) of each school bus driver. Any violations of the Motor Vehicle Traffic Law will be considered along with the driver's accident record. This review will be conducted by the Transportation Supervisor or his representative, to determine whether the driver meets the minimum requirements for safe driving or is qualified to drive a school bus. During his review, the Transportation Supervisor shall have in his possession a copy of the operating record of the driver obtained from the Department of Motor Vehicles. The driver's overall record will be considered if any termination proceedings are necessary.
4. In addition to New York State requirements, the Laurens Central School District further specified that:
 - a. Drivers must report all moving traffic violations to the Transportation Supervisor within twenty-four (24) hours of issue of said summons. A moving violation is considered one by which points are assessed against the driver towards revocation of his driver's license and the Superintendent will judge which of these will be grounds for any disciplinary actions.
 - b. Drivers in the employ of the Laurens Central School District who have been issued a summons for DWI or DWAI, regardless of the vehicle being driven (personal or school), shall be suspended without pay immediately and if convicted shall be permanently and automatically terminated.
 - c. The Transportation Supervisor shall re-evaluate any driver convicted of two (2) or more moving violations in any twelve (12) month period, personal driving record included. During this re-evaluation, the driver may be suspended without pay. If the Transportation Supervisor decides that the driver's driving habits constitute a danger to his passengers, the driver's services will be terminated.

- d. Drivers in the employ of the Laurens Central School District who are issued a summons for a traffic violation while operating a school bus may be suspended without pay and terminated if they are convicted.
5. The Transportation Supervisor or his representative will conduct a personal interview during the annual check of the driver's operating record to assure the accuracy of the driver's records.
6. Regular observations of the driver's defensive driving techniques while he/she is carrying pupils will be conducted by a Motor Vehicle Inspector or individuals certified by the Department of Motor Vehicles. If the driver does not demonstrate satisfactory techniques, the Transportation Supervisor will establish a program of training to bring the driver's performance up to satisfactory standards.
7. The following checklist of mandated requirements for school bus drivers will be an aid in determining that they, and the school district, are in full compliance with §156.3 of the Regulations of the Commissioner of Education:
 - a. No driver may be approved by the Superintendent unless in full compliance with all requirements. This evidence of items of compliance as mandated under §156.3 must be included in writing, and with dates, in each driver's file.
 - b. Date of birth
 - c. Initial date of employment
 - d. Three letters of reference from people who are not related by blood or marriage.
 - e. Six hours of pre-service instruction before starting work.
 - f. Students with Disabilities: One hour of instruction before starting work and one hour every year thereafter.
 - g. Two Refresher Courses: (one in the fall and one in the winter) for ALL drivers.
 - h. Approved 30-hour basic course within first year of employment.
 - i. Fingerprinting and criminal history reviews.
 - j. Physical Performance Test: Must be taken before a driver starts work and every other year after. Also taken, when returning to work after an injury.

- k. Drug Testing: Must be taken before a driver starts work and any other time that the law requires.
 - l. Defensive Driving Review.
 - m. Driver Record Review.
- B. Biennial (every 24 months)
 - 1. Driving Test - each driver must pass a biennial behind-the-wheel road test. A copy of the 19A Examiner's report will be kept with the driver's file.
 - 2. Each driver will pass a biennial oral or written examination administered by the 19A Examiner.

- A. The school bus driver must have a general knowledge and understanding of the importance of developing a good relationship with students, parents, and school officials. Each driver must perform his responsibility or duty conscientiously and contribute to the safe daily transportation of every student to and from school.

Listed below are some of the responsibilities the school bus driver has to various segments of school district personnel:

1. Board of Education and Administrative Staff
 - a. To understand and honor conditions of employment.
 - b. To take maximum precautions for the SAFETY of the pupils placed in his charge.
 - c. To understand and support school policy.
 - d. To observe all regulations relating to routing schedules, loading, and unloading.
 - e. To observe school requirements relating to transportation and maintenance reports.
 - f. To observe every practical economy so that maximum service may result.
2. Parents
 - a. To exercise maximum safety practices.
 - b. To maintain the best kind of personal habits.
 - c. To stimulate and commend good student conduct.
 - d. To be courteous and cooperative and be on time.
3. Public Relations

The courtesy, or lack of it, exhibited by the school bus driver on his daily trips may help formulate strong attitudes in a number of residents of the school district and the confidence of the taxpayers in the school transportation program can affect their willingness to support the educational program because:

 - a. The school bus driver is the ONLY CONTACT some people have with the school.
 - b. The bus driver is frequently observed by the public.

A. Driver

1. All drivers shall be employed for the school year and shall work under the direction of the Transportation Supervisor.
2. Bus drivers are expected to appear with reasonable personal attire and be neat and clean at all times.
3. No commitment shall be made by any bus driver contrary to the policies or directions set by the Board of Education and administrative procedures established by the Superintendent.
4. Bus Drivers are responsible for the health, safety and welfare of the students who ride their bus. To keep them safe, drivers must be able to tactfully handle (control) students as well as control the bus. Students are not always as predictable as a vehicle.
 - a. School bus drivers are responsible for maintaining a safe environment on their bus, therefore, they will discipline students according to the rules established in the student handbooks.
 - b. Any punishment must be reasonable and prudent. Conversation on the bus is expected but being rowdy, shouting, whistling and other unnecessary noises are to be forbidden.
 - c. Drivers shall report all cases needing disciplinary action to the Transportation Supervisor.
 - d. If deemed necessary, the Superintendent, or Building Principal may suspend a pupil from riding on a bus. The Transportation Supervisor will make recommendations to the Administration regarding suspensions.
 - e. A child may not be denied transportation home if he has been brought to school on the bus, unless the parents have granted the school permission to retain the child; or the child is putting the bus in danger by his actions; or the child missed getting on the bus on time.
 - f. A DRIVER MAY NOT EXCLUDE A PUPIL FROM HIS/HER BUS.
5. The driver shall never drive a school bus when he/she has consumed any alcoholic beverage.
6. As a bus driver, use common sense at all times. Bus drivers are operators of expensive vehicles, and carriers of PRECIOUS and PRICELESS cargo. At all times, bus drivers should drive with a safety first factor in order that no child will be maimed, injured, or killed.
7. Driver Absence
 - a. Avoid unnecessary absences whenever possible. Notify the Transportation Supervisor as early as possible so that a substitute can be obtained.

- b. Call in Time: Each driver must call the Transportation Supervisor at least two hours before a scheduled run for both regular and special runs if they are too ill to work; with the exception that one hour will be considered adequate before a scheduled morning run. If a bus driver calls late, the bus driver will be docked instead of being credited with a sick day of leave.
 - c. Excessive absences will be sufficient reason to deny a driver's right to a regular run.
- 8. Regular drivers may be assigned a longer night run on any given day that buses and drivers are needed for extracurricular trips.
 - 9. Drivers of regular AM/PM routes may be changed at the discretion of the Transportation Supervisor and/or the Superintendent.

B. Driving

- 1. Activate yellow crossing lights 500 feet before stop.
- 2. Yellow and red crossing lights must be used whenever loading and unloading students. Particular care should be taken to see that this signal flasher is on when children CROSS THE STREET OR ROAD.
- 3. Loading and Unloading
One of the most important maneuvers you make is the loading and unloading of students. Experience shows that this is a point where students and drivers are exposed to many hazards. Procedures for loading and unloading must be followed at all times.

You must learn proper procedures for controlling traffic, for crossing pupils, for loading and unloading pupils, and for the proper seating of children.

Responsibility to the student starts approximately 500 feet from a stop or at that point where you can recognize a student as she/he approaches or leaves a bus stop. THE STOPPING and LOADING procedure is:

- a. When approaching the designated stop, slow down in preparation for the stop.
- b. Apply brakes hard enough to light up the brake lights so that vehicles following will have an indication you are about to stop.
- c. Activate yellow lights.

- d. Check all mirrors to see that traffic is clear and it is safe for you to stop.
- e. Approach students with extreme care, giving due consideration to the surface on which you are going to stop: dry, slippery, drops sharply to the right, rough ground, etc.
- f. If possible, do not pull up any closer than 15 feet from the waiting students.
- g. Place transmission in neutral. Set parking brake.
- h. Open the front door when you are ready to board the students. They should be trained not to move toward the bus until the door opens. If your bus is on an 8-light system, opening the door will deactivate the amber flashing lights and activate the red flashing warning lights.
- i. Have students go directly to their seats as prescribed by local district policy.
- j. Check to make sure students are all properly seated, and then close the front door.
- k. Check traffic, use mirrors; retain road speed; and proceed to your next stop.

UNLOADING students poses added problems, especially on the return trip home. Follow the LOADING procedure with these additions:

- a. You are responsible for the safety of all students crossing the roadway, regardless of their grade level.
- b. When approaching the bus stop, activate the amber flashing warning lights. Do not allow students to get off the bus until passing cars have stopped.
- c. Give the motoring public a chance to react to the flashing red warning lights. Do not allow students to get off the bus until passing cars have stopped.
- d. Pupils crossing the highway shall pass in front of the school bus AT LEAST TEN FEET AHEAD OF IT. Care must be taken to make sure that these pupils do not step out on the road beyond a point protected by the bus until the school bus driver gives the signal for them to cross the highway. (Refer to §156.13 (f) (4) Regulations of the Commissioner of Education.)

- e. Drivers must check traffic in both directions before allowing students to cross the roadway.
 - f. While performing this operation, remember that you are not a traffic officer, and have no rights other than a regular motorist. In other words, **DO NOT SIGNAL ANY MOTORIST TO DO ANYTHING**. If a driver of a motor vehicle violates the red light law, push button on camera to activate Event Marker and then write down and turn in his license number to the Transportation Supervisor or to the appropriate law enforcement agency.
 - g. Wait until it is safe for students to cross and then give them a prearranged signal.
 - h. When students have safely crossed the road, immediately cancel the red flashing warning lights to allow stopped traffic to move on.
 - i. Check rearview mirrors before proceeding.
4. Drivers should not leave the bus without stopping the motor, removing the key and setting the emergency brake; if on a grade, turn wheels into the curb and pump down the brakes on buses with air brakes.
- a. Children should not be left on the bus without supervision.
 - b. When loading and unloading buses, the driver shall stay in the driver's seat.
5. Stop at all railroad crossings, and look and listen both ways before proceeding across in low gear. Use 4-way warning at R.R. crossings. Open driver's window. Require complete silence when crossing all railroad tracks.
6. Always use directional signals before making a turn either right or left.
7. All buses will be operated with doors closed. Do not open the door and activate the flasher before you stop.
8. Demonstrate a spirit of courtesy and consideration to motorists when on the highway. Occasionally pull off the road and allow cars to pass, when you do not have pupils loading or unloading and there is no hazard involved. Share the road, be courteous, be a good public relations representative of your school. Do not crowd other vehicles. Check your mirrors frequently so that you know when another vehicle is behind you.
9. No pupil will stand in front of the white line when the bus is in motion.

10. The driver shall not back his bus up on school grounds without a spotter. The driver shall not back a bus up when loading or unloading students.
11. Headlights must be on at all times when the bus is moving.
12. Whenever changing lanes or passing, use the turn signals.
13. The driver is required to wear his/her seat belt at all times.
14. Drivers are required to obey all of the rules and regulations of the State Department of Motor Vehicles, DOT (Department of Transportation) and the State Education Department at all times.
15. Ten commandments for driving safely.
 - a. Keep to the right of the center line on the highway.
 - b. Pass overtaken vehicles on the left, but only after making sure the road ahead is clear enough to permit returning to the right with a wide margin for safety.
 - c. Never attempt to pass or overtake a vehicle at an intersection, on a curve, or approaching the crown of a hill. At intersections, be prepared to stop if a vehicle, on an intersecting road, is moving into the intersection and do not try to take the right of way.
 - d. Keep far enough back of the vehicle ahead to allow a safe braking distance in the event that the other vehicle makes a sudden stop. Except in an emergency, do not stop so suddenly as to cause collisions by a following vehicle.
 - e. Signal before making a turn and further ensure safety by looking to see whether a vehicle is approaching from the rear. Wait before pulling out from the curb until making such observation.
 - f. Always take extreme caution before backing up a bus. Except in unusual circumstances, no bus should be backed up other than turning around on a bus run, or backing into, or out of, a parking spot.
 - g. Always stop before crossing railroad tracks. After carefully looking in both directions and listening, proceed only if it is safe beyond any possible doubt and then proceed in low gear, gears are not to be shifted until all tracks have been cleared.

- h. Do not operate at excessive speed at any time. At curves, blind crossings, crests of hills, in the fog, or wherever the view is curtailed, reduce speed so as to be able to stop within the distance of clear vision.
 - i. Always drive defensively, make allowances for lack of skill of other drivers, allow for weather and road conditions. Keep continually on the alert; recognize that preventive actions save lives!
 - j. Continued tardiness for the start of bus trips is not permitted.
16. Failure of a driver to comply with any of the above listed rules will cause said driver to be subject to dismissal or suspension. All of the aforementioned rules and regulations will be administered by the Transportation Supervisor and Superintendent.

C. Procedure

- 1. Establish a time schedule and adhere to it rigidly, weather and roads permitting. Keep your watch set accurately with the school clock and establish your time schedule for your stops. Do not allow your passengers to disrupt your schedule through failure to cooperate.
- 2. School buses shall be used only for transporting children between home and school, or to approved school-sponsored activities. No one, except school children or chaperones, will ride buses, without special permission from the Transportation Supervisor or Superintendent.
- 3. Drivers should not allow students to disembark at any stop other than assigned, without a written permission slip signed by the Superintendent.
- 4. At 2:59 PM, when the students are dismissed (elementary classes will be dismissed a few minutes earlier) – all students must board their respective buses (the one they ride from home to school).
- 5. Once on the bus, the students can not get off. The bus drivers have been instructed not to allow any students off the bus after they have boarded the bus.
 - a. Parents who want to pick up their children, tell them in the morning where to meet you after school.
 - b. Parents do NOT expect the bus driver to let your son/daughter off the bus after they have boarded.
 - c. The students are instructed to go straight to their buses. As the students load, each driver has an attendance sheet and marks the students on the sheet. The Main Office Secretary will provide a list of students that have early dismissal for that day to each driver. Any student that is being picked up by the parents in the afternoon will have to remain in the classroom until the parent arrives. It is the parents' responsibility to send a note into the school's Main Office with their child in the morning.

When the buses are loaded, the driver takes attendance. If a student in grades K-6 is absent, the driver notifies the Main Office Secretary who will confirm the absence or use the PA system to find the child.

6. Students must go home on the bus they normally ride to school. Any exceptions to this routine, must follow this procedure:
 - a. Students must bring a written note to school from their parent and delivered to the Main Office by 9:00 AM.
 - b. The school secretary will call the parents involved to confirm the request.
 - c. Requests, written or phoned, received after 2:00PM may not be honored.
 - d. The bus drivers will be notified not to allow any non-regular student on the bus, confirmed by the Main Office Secretary or on the bus sheet.
 - e. No students will be allowed on a different bus, other than what he/she is assigned, without permission from the Main Office.
 - f. No student will be left at a location other than at his/her home unless confirmed by the Main Office Secretary or on the bus sheet.
7. Students must board the bus as soon as they are dismissed from school. Any student who leaves school property without Administration's permission, for any reason will not be allowed to board the bus.
8. Drivers are not to stop the bus while enroute and allow a parent or anyone else to remove any students from the bus. Once on the bus, students will be delivered to their home.

The reason for this procedure is that:

- a. Bus drivers have a definite responsibility and personal liability for the students assigned to their bus.
- b. The school also shares in that responsibility and personal liability.
- c. Parents expect the school to be responsible for their children at all times that they are under school supervision.
- d. The time allocations are reasonable for the request to be accomplished and to "fit in" with the normal daily school activity.
- e. The school bus is not public transportation - It is for the transportation of students to and from school and any other school sponsored activities.

9. No standing passengers are to be carried at any time. Make sure ALL PASSENGERS ARE SEATED BEFORE STARTING THE BUS.
10. Only responsible students should be assigned to the seat where the emergency door is located.
11. Drivers must observe the posted speed limit at all times except when the speed limit is above 55 mph. A school bus must never run above 55 mph.
12. Be observant and have pupils watch for vehicles which pass your bus illegally and turn the license number, the location, hour and the date of the violation in to your supervisor immediately upon returning to the garage.
13. If in trouble, notify the bus garage or school office as soon as possible by calling, unless you are able to overcome the difficulty immediately. DO NOT LEAVE YOUR BUS TO GO FOR HELP. Send an older and dependable student to telephone for you.
14. Seats will be assigned by the bus driver.
 - a. All students must have permanently assigned seats for the AM and PM runs.
 - b. Students are to sit in the assigned seats at all times.
15. Unscheduled, unauthorized, or unlicensed personnel are not to drive a school bus.
16. Bus drivers will have an annual meeting each year held in August.
17. Bus Drivers must record attendance daily on both the AM and PM runs.
 - a. Forms will be issued for this purpose;
 - b. They must be completed and filed with the Supervisor of Transportation weekly.

D. Use of the Bus Garage

1. The Superintendent and the Transportation Supervisor are the only individuals who can authorize the use of the bus garage facilities.
2. The bus garage facilities are to be used by no one except the bus mechanics and/or their authorized representatives.
3. No employees of the school system will avail themselves of the bus garage facilities to work on their own vehicles or equipment other than school district owned vehicles.

- E. School closing will be determined by the School Administration. If the school is to be closed, local radio stations will be notified and drivers are not required to report unless specifically directed by the Superintendent.
- F. Bus Routes
 - 1. Primary bus routes are subject to change, modification or elimination depending on the School Administration's judgment of the School District needs.
 - 2. Late bus routes will be at the discretion of the School Administration.
 - 3. Bus routes are NOT permanently assigned to a particular driver. A Bus Driver's route assignment can be changed any time at the discretion of the administration.
- G. Bus Assignment
 - 1. A particular bus is not assigned permanently to a particular person.
 - 2. Buses are assigned according to need, for example:
 - a. to pick up a particular number of children
 - b. as determined by road conditions
- H. Students
 - 1. Loading and Unloading (drivers are to instruct students as to the following):
 - a. Student Unloading
 - 1. STAY SEATED until bus comes to FULL STOP!
 - 2. GET OFF PROMPTLY as soon as the bus comes to a FULL STOP.
 - 3. WALK AT LEAST 10 feet AHEAD OF BUS along the edge of the road.
 - 4. WAIT until driver signals you across.
 - 5. WALK ACROSS QUICKLY, double check both ways yourself. Don't run.
 - 6. GO into your house by the shortest route.
 - b. Student Loading
 - 1. Come from house and WAIT (at the designated spot so assigned by the bus driver) for the bus to arrive.

2. WAIT till the bus has stopped, all lights are flashing and until the bus driver signals you are to cross the road.
 3. WALK ACROSS QUICKLY, double-check both ways yourself. Don't run.
 4. WALK AT LEAST 10 ft. AHEAD OF BUS, then along the edge of the road.
 5. GET ON PROMPTLY and take your assigned seat.
2. Smoking/chewing of tobacco/use of e-cigarettes/ any type of vaping device/tobacco/non-controlled and controlled substances will not be permitted at any time on the school buses.
 3. Profanity or improper language will not be permitted on the buses.
 4. Drivers must not allow pupils to extend any part of their body out of open windows.
 5. Drinking and eating is forbidden on the school bus. Permission to eat/drinking on the school bus will be determined by the driver.
 6. Do not permit passengers to throw anything out of the windows.
 7. Bus Rules for Students (refer to Student Handbook Page 55)

- h. All drivers are to be held responsible for reporting any necessary maintenance deficiencies of assigned bus. This must be reported in writing to the Transportation Supervisor on the daily report trip sheet.
- 3. The driver should never attempt to repair anything. The driver's role is to help the mechanic in diagnosing the source of trouble by giving him information regarding the functioning of the vehicle.
- 4. In cold weather, warm up your motor slowly before starting out, and then drive carefully until your motor is at the proper operating temperature.
- 5. Drivers should make an effort to keep buses well ventilated.

Comments

The following is a general dress code. Departments that are required to wear uniforms, please refer to your departments section in this handbook. (i.e. cafeteria, maintenance, transportation)

Staff Dress Code

1. Staff are encouraged to follow the student dress code language.
2. Teachers, teacher aides, and other staff members are not to wear shorts to school. The exceptions to this rule are:
 - a. You are a Physical Education teacher.
 - b. During the June Regents week, teachers, teacher aides, etc., may wear shorts if they do not have contact with students.
 - c. Teacher/Teacher aides going on field trips may wear shorts if appropriate for the field trip experience. (i.e. Play Day)
3. Jeans are not acceptable attire unless we are having a jeans day or sweat shirt day. The exceptions to this rule would be:
 - a. You are a maintenance worker.
 - b. You are a bus driver.
 - c. Field trips - when appropriate.
4. If you have something that is questionable - DO NOT WEAR IT!!

Remember, we are all professionals. We need to model professional behavior and dress in a professional manner.

The determination of Inside Days when the weather is too cold or stormy to have children play outside comfortably will be made following this procedure:

1. The Building Principal will make the determination on having recess time outdoors.
2. Once a decision has been made, the outcome will be sent to everyone in an email
3. If the message is... the action taken will be...
 - a. outside day - classes will be taken outdoors
 - b. inside day - you may choose to go out or stay in advisory
 - c. must stay inside - classes will be indoors
4. The best laid plans could change if it starts raining after the initial decision has been made. This is New York State and who can know the weather from minute to minute? Once it starts raining you may keep your students indoors.

Our philosophy is that these children can benefit from the fresh air and activity. It keeps them more alert during the afternoon and gives the school program the minutes it needs to satisfy the New York State physical education curriculum. The physical education teachers intend to use the playground structure as part of the elementary students' upper body strength development and during recess we can give them the organized time to practice what they have learned. Let's get them outside whenever possible and keep them involved and active while learning to use and develop their social skills.
